## Objectives and Investment Policy summary

### NFB Ci Global Balanced Feeder Fund

#### Objective:

The investment objective of the portfolio is to provide capital growth by providing investors with exposure to an international collective investment scheme portfolio comprising a diversified mix of global exposure to various asset classes.

#### Investment Policy:

Investments to be included in the NFB Ci Global Balanced Feeder Fund will, apart from assets in liquid form, consist solely of participatory interests of only one collective investment scheme portfolio, namely the NFB Global Balanced Fund of Funds, being a sub-Fund of Ci Global Investments RIAIF ICAV, an open-ended umbrella type investment company with segregated liability between Funds, authorised by the Central Bank of Ireland

The NFB Global Balanced Fund of Funds, the target portfolio into which the NFB Ci Global Balanced Feeder Fund will invest in, will diversity investments across various asset classes, and is not focused on any specific geographical area, industry or sector.

The Underlying Funds will primarily invest in global equities and global equity linked securities (which may include, but are not limited to, such instruments as common stock and shares). The Underlying Funds may also invest in cash and/or cash equivalents, money market instruments, global bonds and real estate investment trusts.

A feeder fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges, which could result in a higher fee structure for the feeder fund.

## Adherence to Policy Objectives

**Disclaimer:**

Collective Investment Schemes in Securities ("CIS") are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of units apply to this portfolio and are subject to different fees and charges. A schedule of fees and charges is available on request from Ci. Ci does not provide any guarantee either with respect to the capital or the return of the portfolio. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. International Investments may include additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. The portfolios may be closed from time to time in order to manage them more efficiently in accordance with their mandate. A fund of funds is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for the fund of funds. The NFB portfolios are portfolios established and administered by Ci, and NFB Asset Management (Pty) Limited has been appointed to manage and market the portfolios. NFB is an indirect shareholder of Ci. As an indirect shareholder, NFB may earn dividends from time to time and participation in any dividends may be linked to the revenue generated by Ci from the NFB portfolios, and from any other Ci portfolios. Ci retains full legal responsibility for this co-named portfolio. Additional information on the portfolio may be obtained, free of charge, directly from Ci. Ci is a Non-Voting (Ordinary) Member of the Association for Savings & Investment SA (ASISA). An execution fee of up to 0.04% (incl. VAT) on any swap transactions may be payable to NFB in addition to the annual fees referred to above.

A FX fee of up to 0.05% (incl. VAT) on any FX transactions may be payable to NFB in addition to the annual fees. In order to consolidate and aggregate NFB's activities, one NFB portfolio may invest in another NFB portfolio. NFB will not earn additional fees as a result of such investments.

Total Expense Ratio (TER): For the period from 1 Apr 2022 to 31 Mar 2025 (or from Inception to 30 Dec 2024 for funds in existence for less than 3 years), the TER % has been annualised and indicates the percentage of the value of the portfolio which was incurred as expenses relating to the administration of the portfolio over the rolling 3 year period or since fund inception, on an annualised basis. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER's cannot be regarded as

Transaction Cost (TC): For the period from 1 Apr 2022 to 31 Mar 2025 (or from Inception to 30 Dec 2024 for funds in existence for less than 3 years), an indication of future TER's. the TC % has been annualised and indicates the percentage of the value of the portfolio which was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction Costs are a necessary cost in administering the portfolio and impacts portfolio returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of portfolio, investment decisions of the investment manager and the TER.

Total Investment Charge is the TER plus TC which indicates the percentage of the value of the portfolio which was incurred as costs relating to the investment of the portfolio..
