**Disclaimer:** Collective Investment Schemes in Securities ("CIS") are generally medium to long terms investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of units apply to this portfolio and are subject to different fees and charges. A schedule of fees and charges is available on request from Ci. Ci does not provide any guarantee either with respect to the capital or the return of the portfolio. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. International Investments may include additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. The portfolios may be closed from time to time in order to manage them more efficiently in accordance with their mandate. The Woodland AM portfolios are portfolios established and administered by Ci, and Woodland Asset Management (Pty) Ltd has been appointed to manage and market the portfolios. Woodland AM is an indirect shareholder of Ci. As an indirect shareholder, Woodland AM may earn dividends from time to time and participation in any dividends may be linked to the revenue generated by Ci from the Woodland AM portfolios, and from any other Ci portfolios. Ci retains full legal responsibility for this co-named portfolio. Additional information on the portfolio may be obtained, free of charge, directly from Ci. Ci is a Non-Voting (Ordinary) Member of the Association for Savings & Investment SA (ASISA). A FX fee of up to 0.05% (incl VAT) on any FX transactions may be payable to Woodland in addition to the annual fees.

Total Expense Ratio (TER): From 1 Apr 2022 to 31 March 2025, the TER % has been annualised and indicates the percentage of the value of the portfolio which was incurred as expenses relating to the administration of the portfolio over the rolling 3 year period or since fund inception, on an annualised basis. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER's cannot be regarded as an indication of future TER's.

Transaction Cost (TC): From 1 Apr 2022 to 31 March 2025, the TC % has been annualised and indicates the percentage of the value of the portfolio which was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction Costs are a necessary cost in administering the portfolio and impacts portfolio returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of portfolio, investment decisions of the investment manager and the TER.

Total Investment Charge is the TER plus TC which indicates the percentage of the value of the portfolio which was incurred as costs relating to the investment of the portfolio.

The TER and Transaction Costs cannot be determined accurately because of the short life span of the Financial Product Calculations are based on actual data where possible and best estimates where actual data is not available
